

# Emacrit®

## ORALLY SOLUBLE STICK PACKS

Food supplement

**Microencapsulated and micronised  
iron saccharate**

**Folic acid, Vitamin C, B6, B12**

WITH SWEETENERS  
GLUTEN FREE

**Ingredients:** sweetener: sorbitol; maltodextrins; vitamin C (L-ascorbic acid), microencapsulated iron saccharate (coating agents: sodium alginate, calcium acetate), aroma, acid: citric acid; vitamin B12 (cyanocobalamin), vitamin B6 (pyridoxine hydrochloride), bulking agent: silicon dioxide; sweetener: sucralose; folic acid (pteroyl-monoglutamic acid)

**Package:** box with 30 stick packs of 1,8 g each.

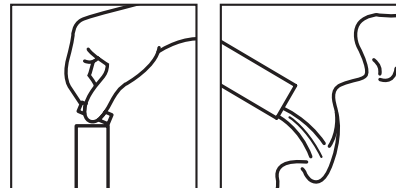

**Class:** food supplement.

**Emacrit®** is an association of iron saccharate, folic acid and vitamins C, B6 and B12. Iron, together with folic acid and vitamins B6 and B12, promotes normal red blood cells formation and helps to counteract tiredness and fatigue. The micronised and microencapsulated iron saccharate form guarantees high digestibility, avoiding at the same time both the metallic aftertaste and classic disorders associated with iron integration. This formulation has been optimized with the addition of vitamin C, which increases iron adsorption.

**Emacrit®** is indicated in cases of insufficient dietary intake, increased need or reduced absorption of its components.

**Recommended dose:** 1 stick pack per day.

**Instructions for use:** Open the stick pack following the cutting line and pour the content directly into the oral cavity; if you prefer, you can dissolve the content in a glass of water (200 ml).

**Warnings:** Food supplements are not intended as a substitute for a varied, balanced diet and a healthy lifestyle. Do not exceed the recommended daily dose. Keep out of reach of children under 3 years. Do not take the product in case of hypersensitivity or allergy to one or more components.

**Storage conditions:** store at room temperature (not higher than 25° C); avoid exposure to heat sources, sunlight and contact with water. The expiry date refers to the product unopened, properly stored.
