Gluten free

Packaging and content: box of 30 sachets, each containing 6 g of granules for oral extemporaneous suspension.

Product category: food supplement containing amino acids, vitamins and zinc.

Indications: **STENOREX** is a food supplement based on amino acids (L-arginine, L-lysine, L-citrulline, L-cystine) and Vitamins (B1, B9, B12, C and D) associated with Zinc, which may be useful in maintaining the physiological levels of testosterone and support for the normal function of the acid-base metabolism, the immune system, fertility and reproduction functions, to protect cells from oxidative stress and to maintain a physiological protein synthesis.

Instructions for use: pour the contents of one sachet into a glass of water. Stir well until it becomes a homogeneous suspension.

Recommended dose:

- Children > 7 years and adolescents: 1 sachet per day.
- Adults: up to 2 sachets per day.

Warnings: do not exceed the recommended daily dose. Food supplements are not intended as a substitute for a balanced and varied diet and a healthy lifestyle. Keep out of reach of children under three years old. Do not use during pregnancy and in children, or for prolonged periods of time without consulting a doctor.

Storage conditions: store in a cool and dry place. Avoid exposure to localized heat sources, direct sunlight and contact with water. The expiry date refers to the product unopened, properly stored.
